

Struggling with Endpoints?

Compliance issues, security concerns, expensive antivirus software and disparate devices create an IT management nightmare

Have x86 and ARM Devices?

Deploying a mixed environment effectively is impossible without the right solution

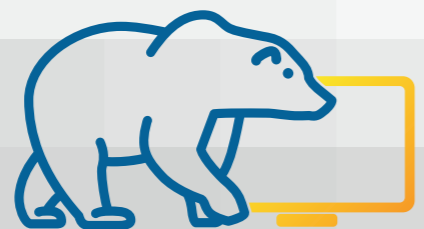

Do You Have the Right Solution?

Enterprises need a robust solution capable of handling H.264, Skype for Business, Dual-View, BYOD remote work and much, much more.

Can You Handle the Cloud?

Will your solution be able to deliver and manage virtual desktops in the Cloud to PCs, Notebooks, Thin Clients, Raspberry Pis and beyond?

STRATODESK CAN HELP!

stratodesk

Convert x86 and ARM based devices into secure NoTouch Clients. Benefit from the unrivaled endpoint OS and management solution. Stratodesk NoTouch Desktop standardizes devices, replaces Windows and works with both x86 and ARM based devices directly out of the box.

NoTouch Desktop

- » **NoTouch Desktop (comprised of NoTouch OS and NoTouch Center).** Convert disparate devices into standardized NoTouch Clients. Deliver virtual desktops from the Cloud or your on-premises server to any device around the world
- » **Easy to Use.** Stratodesk NoTouch Center is the easiest-to-use endpoint management solution on the market – it runs on-premises or in the Cloud
- » **Hardware and Vendor Agnostic.** Stratodesk software works with the widest variety of hardware devices imaginable – everything from x86 to the most cutting edge IoT device
- » **Scales Infinitely.** Deploy Stratodesk indefinitely onto thousands of devices – ideal for enterprises and organizations of all sizes in any industry
- » **Indomitably Secure.** Ensure the health and vitality of your secure digital perimeter with the hardened security of our Linux-based OS

Endpoint OS and Management for
the Modern Enterprise
