

# Stratodesk Advantages at a Glance

## Unrivaled End User Experience

Stratodesk offers the perfect end user experience via our Linux-based OS, NoTouch OS. Your workers can quickly access their virtual desktops from your on-premises server or Cloud provider as seamlessly if they were working on a local Windows installation.

## Superior Endpoint Management

Stratodesk NoTouch Center is the premier endpoint management solution. Control every single endpoint device from one easy-to-use administration center.

## Unmatched Security

We pride ourselves on meeting your top security standards. NoTouch OS is immutably secure, preventing unwanted third party applications or common security exploits. Also, NoTouch OS communicates securely with NoTouch Center using HTTPS protocols, granting you a real-time tactical overview of your entire digital perimeter.

## Multi-Platform Multi-Cloud Hardware Agnostic

Stratodesk's software is the only truly platform independent, hardware agnostic solution. Its flexibility and freedom from vendor lock-in enables you to deploy it across your VDI, Cloud or IoT network as effortlessly as making a few clicks.

## Anywhere Computing is Here

With Stratodesk Cloud Xtension, NoTouch Go and native VPN directly out of the box, IT can effectively enable remote work from anywhere in the world – at the office, at home, or remote from the beach!

## Peerless Speed and Ease

Managing your entire fleet of endpoints anywhere in the world has never been easier. Stratodesk software deploys in minutes onto your endpoints and enables easy management for all devices from one central location.

## Longer Lasting Hardware/ Deeper Pockets

Save money on expensive hardware overhauls – Stratodesk software converts new and existing devices into high powered, standardized, Linux-based Thin Clients.

## Dozens of Technology Integrations

With the widest range of technology applications available on the market, Stratodesk easily fits into any work scenario. We also come complete with the latest major VDI clients preconfigured, including Citrix Workspace app and Horizon View Client.
