Outstanding user experience Fiber Zero Client w/ 6 USB ports and dua monitor support.
Supports low speed USB peripherals including multiple monitors, keyboard, mouse, audio, and more.

Zero Client CD7524M

IDEAL FOR:

- **State & Local Government**
- **IT Professionals**
- **Military & Defense**
- **Command & Control Centers**
- **Healthcare, Financial, & Insurance**
- **Call Centers**
- **Oil & Gas**

KEY FEATURES

Chipset
Teradici TERA2321 PCoIP

Video
Single: 2560x1600
Dual: 1920x1080

External Ports
2 x DVI
Mic+Speaker 3.5mm
6 x USB 2.0
1 x SFP-Fiber/Copper 1Gbps
SmartCard Reader

Memory
512MB

Storage
256Mbit

TECHNICAL SPECS

Weight
1.5 lbs.

Dimensions
1.2" (H) x 6.5" (W) x 5" (D)

Environment
-20°C to 70°C (-4°F to 140°F)

Power
DC 19V/3A external power adapter
Max Power Consumption: 12.8W

Physical Characteristics
Metal housing

Security
Kensington Slot for use with Kensington locks
Integrated PKI approved smart card reader on CD7034

Regulatory Compliance
TAA Compliant

Part Number   **Part Description**
G09007522   -   CD7522M
G0900397   -   CD7524M

BENEFITS

Delivers full desktop computing experience via an IP connection to Blade PCs or VMware Horizon desktop with no noise, less heat, and in a small space

Soldered down eMMc improves data and hardware security.

Supports Citrix® Xen Desktop, VMware® View with Blast Extreme and PCoIP®, and others.

Centralizes PC resources in a single, secure location; increases security of physical and data assets

7 USB ports add-on and DVD drive add-on available

Rear View

SIMPLE AND SECURE

An additional security feature on the CD7524M includes an integrated PKI-approved CAC reader that supports 5V, 3V, and 1.8V smart cards for enhanced user-to-network and user-to-application authentication and a 100/1000 BASE-X SFP fiber-optic network module (with LC optical interface) to provide increased data security and integrity.

FULL PC EXPERIENCE OVER IP

ClearCube CD7522/24M delivers high performance and robust security in a PCoIP Teradici TERA2 computing solution unhindered by distance. The CD7522/24M Zero Client delivers full performance video on dual monitors and connects over fiber networks to VMware virtual desktops, servers, Blade PCs or public cloud resources brokered by WMware Horizon. Traditional, dedicated 1:1 users (where one person uses one dedicated computer) can take advantage of hardware accelerated PCoIP host cards in ClearCube Blade PCs to support legacy, mission-critical, and GPU intensive applications.

The CD7522/24M Zero Client requires no special OS drivers, there are no moving parts that can fail and no removable parts that encourage user tampering or theft. The units support all low speed USB peripherals including multiple monitors, keyboard, mouse, audio input/output devices, and more.

HIGH PERFORMANCE, OPTIMAL QUALITY

The CD7522/24M's powerful TERA2321 chip supports AES-128/AES-256 Suite B Ciphers for exceptional security, one DisplayPort connector and one DVI-I connector, the CD7522/24M supports one display at 4K resolution (DisplayPort only), and two displays at 1920 x 1200 resolution, and full power management with Wake-on-LAN features.
