Part Number Part Description

CD8843 - G0908843-1

BENEFITS

Improves hardware and data security by eliminating local disks to minimize opportunities for theft and misuse

Browser-based Desktop Management with real-time monitoring, asset management, and job scheduling

Dual HDMI outputs manage two displays at one location

Compact form factor reduces desktop footprint

Support for two Gigabit LAN and Wake-on-LAN support

Intel Pentium 6405U (2C/4T, 2.4GHz, 15W, PTT)

DESIGNED TO

Protect firmware, encrypt data, and lock down access. It features a ruggedized aluminum alloy housing structure that makes for a small attack surface while safeguarding against impacts and allowing for maximum productivity. The CD8843 Thin Client design eliminates fans and vents to protect against dust particles and prevent the ingress of foreign materials. Its fanless design produces practically no noise, making the CD8843 an ideal Thin Client for quiet offices, high temperature installation, or dusty environments.

HIGHLIGHTED CAPABILITIES

Network connectivity features consist of Wi-Fi and two GbE LAN ports. Wake on LAN support enables the Thin Client to be switched on or resumed from sleep/hibernation state by a network message. Video options include up to three high resolution displays using one DisplayPort and two HDMI connectors that expand workspace, making navigation between applications simpler.
