

Tackle tough tasks quickly and get down to business fast with 10th Generation Intel and the latest NVIDIA single-wide GPU.
High performance for intense production.

**Blade PC Workstation
A6108E**

IDEAL FOR:

- Defense & Government Agencies
- Command & Control Centers
- Training & Education
- Architecture & Engineering
- Media & Entertainment
- Financial
- Healthcare

Part Number	Part Description
G0806108-E	Embedded A6018 Blade PC

KEY FEATURES

CPU

Intel 10th Gen i9-10900 (10C/20T, 2.8 ghz up to 5.2 Ghz, 65W, vPRO) or i5-10500 (6C/12T, 3.1 GHz up to 4.5 GHz, 65W, vPRO) TPM 2.0, Secure Boot

Display/Resolution

GPU: Up to NVIDIA RTX A4000

I/O Physical

- DP 1.2 (optional HDMI 1.40)
- 3 x USB 2.0
- 2 x RJ45 1Gbps
- 1 x PCoIP 1Gbps
- USB Header
- E Key 2230
- B Key
- SATA Port

Memory

Type: DDR4 2933 x 2
Recommended: 32GB Max: 64GB

Storage

- M Key 2280
- SATA 2.5" x 2
- SATA 2.5 Removable x 2

Network

- 1Gbe Copper
- 2.5 GBe Copper
- PCoIP 1Gbe Copper

TECHNICAL SPECS

Weight

15 lbs. (6.82 kg)

Dimensions

10" (H) x 26.5" (L) x 1.63" (W)
6U
6/10U

Environment

Operating: 32°F - 104°F (10% to 90% non-condensing)
Storage: -4 - 140°F (5% to 95% non-condensing)

Power

80+ Gold rated 350W PSU
100-240 V, 50-60 Hz

Regulatory Compliance

TAA Compliant

Operating System

- Stratodesk
- IGEL
- Windows 10 IoT
- Windows 10 Pro
- Windows 11

*Dual host cards can deliver up to two monitors at 1920 x 1200 or one monitor at 4k resolution (15FPS). Quad host cards can deliver up to four monitors at 1920 x 1200 or two monitors at 4k resolution (15FPS)

RevM05182022

BENEFITS

Powered by Intel 10th Generation (Coffee Lake) Core i9/i7/i5

High-density rack mount platform puts 10 Blade PCs in a 6U rack space

TPM 2.0 and UEFI 2.7 BIOS to meet the latest DoD requirements for Windows 10 support

Embedded system to meet long term support requirements

Dual 4K monitor support for high performance multimedia

REDUCE THE NOISE, HEAT, AND CLUTTER...INCREASE SECURITY

ClearCube Blade PCs deliver true workstation performance in an optimized data center platform. The A6108E workstations are designed for robust performance and efficiency by combining Intel 10th Gen Core™ i5/i7/i9 processors, up to NVIDIA RTX A4000 GPU and remote display protocol acceleration to deliver a remarkable high-end PC experience over an IP network. Working with ClearCube fiber and copper zero clients, A6108E Blade PCs support up to two 4K displays and USB redirection over the network using the HP Anyware PCoIP protocol. Although all the CPU/GPU processing is data center host-rendered, users will receive the same hefty performance benefits of desktop PCs or workstations but without the noise, heat, cable clutter, and with the benefit of the computer being in an IT- secured area.

OUTPERFORM VIRTUAL GPUs & COST LESS

A6108E Blade PCs enable IT organizations to give power users the dynamic features they need to run CAD/CAM/GIS/3D applications, by featuring 10th Generation Intel® Core™ Coffee Lake processors up to i9, Intel Q470 chipsets, 64GB of memory, up to NVIDIA® RTX A4000 GPUs, two hot-swappable 2.5" drive bays that support Intel RSD Raid, dual or quad 1:1 PCoIP® host cards and dual Gigabit Ethernet connections. For users who have long term support requirements A6108E Blade PCs feature motherboards and processors from Intel's embedded roadmap. Talk to us about why so many companies are switching power users from vGPUs to A6108 blades.

UNPARALLELED DATA AND INTELLECTUAL PROPERTY SECURITY

Protecting data and eliminating the chances of unauthorized access are two important considerations for enterprise companies. The A6108E Blade PCs serve as a local workstation for a dynamic PC performance to end users across the network, ensuring your data and intellectual property is always secure in the data center. When users connect to their A6108E blade PC using HP Anyware PCoIP protocol and a secure client device at the desktop, no data travels across the IP connection — only pixel change updates are sent to the displays.
